HOW THE PROGRAM WORKS...

The Fact: Printing is not expensive when tens of thousands of items are printed at one time.

The Opportunity: We are able to print this mini-book and make it available for \$1.00 if we partner with churches, individuals, and other organizations. It has a suggested retail price of \$3.99. But we must get critical mass into the printing project...

The Challenge: To get to such a low price, we have to print ten thousand or more copies at a time.

Our Vision: We would like to partner with churches all over the USA to finance the printing and distribution of this mini-book.

Your Commitment: If you, your church, your school would commit to making a one-off contribution, we can print and distribute as many mini-books as you commit dollars. If just ten churches contribute \$1,000 each, that means that ten thousand copies of the mini-book are on their way to our military!

Printing Starts... We plan to start printing once we have at least \$10,000 towards the project.
